

Choose your finish

NATURAL OR PAINTED

A painted finish allows you to further enhance and personalise almost any product we manufacture.

All our joinery can be supplied in one of our own 12 attractive colours, or in the exact colour of your choice using our colour matching service.

Our pre-painted joinery is prepared in a dedicated indoor paint shop with enclosed spray booths and temperature-controlled drying rooms. This allows the painted joinery to be prepared in the best possible conditions, free from the weather, ensuring the most attractive and durable finish.

The Garden Trellis Company colour chart has been carefully selected using tones that will complement any garden setting.

COLOUR FINISHES

			
PEARL	STONE	SEASMOKE	MANHATTAN GREY
			
DEBEN	DEDHAM VALE	GORSE GREEN	GREENWICH GREEN
			
ORFORD CREAM	CLAY	AUTUMN TIDE	DEEP MOSS

NATURAL FINISHES

	
THERMALLY TREATED RADIATA PINE AND EUROPEAN SOFTWOOD	HARDWOOD IROKO
	
SOFTWOOD WESTERN RED CEDAR	HARDWOOD ENGLISH OAK & EUROPEAN OAK

We work with many types of responsibly sourced timber, including durable hardwoods such as Iroko and Oak, as well as softwoods like the richly coloured Western Red Cedar, and the high-quality, virtually knot-free finish of thermally treated timber – a chemical-free heat and steam process which naturally enhances the durability and stability of timber boards. Over time, the natural timbers all weather to a beautiful silver-grey.
